## John Deere's Self-Dump Sulky Rake

The First Consideration Has Been Simplicity and Durability!  
DURABLE

Axle studs are 1 1/4 inches in diameter, and are reversible and interchangeable, which doubles their life.

Dump rods are of high carbon steel, 3/4 of an inch in diameter. They have four times the durability of the ordinary dump rod, as they are reversible individually, interchangeable and again reversible.

## SIMPLICITY

We can rightfully boast that our rake has fewer parts than any rake on the market. Simplicity of construction and proper material, systematically and symmetrically distributed, mean much to users.

## SAYS THE COLONEL IS A COMER.

(Augusta Chronicle.)  
Hon. J. Roe Young of Maysville, was here during the forepart of the week in the interest of his race for the Democratic nomination for Congress, and created a most pleasing impression on those with whom he came in contact. Colonel Young is a native of Bath County, a son of the late Judge John D. Young, who represented the old Ninth district in Congress and also served as county Judge of Bath County several terms. He is well known throughout the Ninth district, having resided in Bath County, and at Carlisle, before coming to Maysville to live. He has a large number of relatives and friends scattered throughout the mountain section of the district, and those from that section who are acquainted with the political situation say that he is the strongest man in the race and is a sure winner. If Colonel Young makes friends like he did in this city during his short stay here in other sections he visits, the man that beats him will be the nominee. Mark this prediction.

## LEXINGTON BANKS

Ask For Crop-Moving Fund.—Loan of 500,000 From Federal Treasury Requested by Local Institution.

A loan of a half million dollars with which to aid the patrons of the national banks in Lexington in moving their crops was requested of the United States treasury department by the Lexington clearing house in reply to an offer from Secretary McAdoo.

In the communication Mr. McAdoo asked if the Lexington banks needed help for the benefit of their farmer patrons and if so, how much and on what security. He stated that while it was expected that the federal reserve banks would begin business in time to give the necessary assistance to the local banks, the treasury department would be prepared to help business to the full extent of its power if it became apparent that such help was needed. The reply of the Lexington banks was that the crops and business conditions in this section are such that immediate help would be of great value to the farmers and business interests.

The loan will be deposited in the Fayette National, First and City National, Phoenix-Third National. The Second National, which is also eligible for the deposit, will not request any of it.

Mrs. Dr. A. O. Taylor and little daughter have returned home after a visit of several weeks in the West.

Miss Lettie Green of Danville, Ky., a former Maysville girl and daughter of the late Col. Thomas M. Green, is here on a visit to her schoolmate friend, Miss Beattie Johnson, of West Fourth street.

## ANOTHER HOT WAVE

This section has been enduring another decidedly warm quality of hot air for several days and nights. Yesterday the mercury was approaching the 100 mark while last night the people sweltered.

No relief in sight. Only a few drops of rain down this way yesterday but there was quite a good shower in the Sixth Ward and above town.
